FINAL YEAR DESIGN PROJECT REPORT

This Report Presented in Partial Fulfillment of the Requirements for
the **Degree of Bachelor of Science in Computer Science and
Engineering**

Supervised by
Supervisor Name
Designation
Department of Computer Science and
Engineering Daffodil International University

Co-Supervised by
Co-Supervisor Name
Designation
Department of Computer Science and
Engineering Daffodil International University

DAFFODIL INTERNATIONAL UNIVERSITY
Dhaka, Bangladesh

September 17, 2025

APPROVAL

This Project titled “**Write Your Title Here,**” submitted by [**write your name**] and [**write your group member’s name (if any)**] to the Department of Computer Science and Engineering, Daffodil International University, has been accepted as satisfactory for the partial fulfillment of the requirements for the degree of B.Sc. in Computer Science and Engineering and approved as to its style and contents. The presentation has been held on **26-01-2024**.

BOARD OF EXAMINERS

Name

Board Chairman

DECLARATION

We hereby declare that this project has been done by us under the supervision of **Name of the Supervisor, Supervisor's Designation**, Department of Computer Science and Engineering, Daffodil International University. We also declare that neither this project nor any part of this project has been submitted elsewhere for the award of any degree or diploma.

Supervised by:

ACKNOWLEDGEMENTS

This work would not have been possible without the support and contributions of many individuals over the past two semesters. We are deeply grateful to everyone who has assisted us in one way or another.

First, we express our heartfelt thanks and gratefulness to the almighty for His divine blessing making it possible for us to complete the **Final Year Design Project(FYDP)** successfully.

We are grateful and wish our profound indebtedness to **Supervisor Name, Supervisor's Designation**, Department of Computer Science and Engineering, Daffodil International University, Dhaka, Bangladesh. Deep knowledge and keen interest of our supervisor in the field of **Write the field name here** to carry out this project. His endless patience, scholarly guidance, continual encouragement, constant and energetic supervision, constructive criticism, valuable advice, reading many inferior drafts, and correcting them at all stages have made it possible to complete this project.

We would like to express our heartfelt gratitude to the Head of the Department of Computer Science and Engineering, for his kind help in finishing our project and also to other faculty members and the staff of the Department of Computer Science and Engineering, Daffodil International University.

We would like to thank our entire course-mates at Daffodil International University, who took part in this discussion while completing the coursework.

Finally, we must acknowledge with due respect the constant support and patience of our parents.

ABSTRACT

The abstract should contain a summary of the work presented in this report in a single paragraph. An abstract is a concise, well-developed paragraph typically between **100 and 300 words**, often adhering to a strict word limit. Its purpose is to provide a brief overview of all key aspects of the paper, giving readers a snapshot of the content. A strong abstract is succinct yet impactful, offering enough detail to convey the main points without unnecessary elaboration. To craft an effective abstract, it is essential to ensure that every word serves a purpose, efficiently summarizing the research while highlighting its relevance, methodology, findings, and conclusions. The goal is to give readers a clear understanding of the paper's value in a minimal amount of space. The paragraph should provide a general background of the problem, methodology, results, and implication.

List of Tables

2.1	Summary of Literature Reviewed.	2
5.1	Mapping with complex problem solving.	8
5.2	Mapping with knowledge Profile.	8
5.3	Mapping with complex engineering activities.	9

Chapter 1

Introduction

[Must be present in Phase-1 Progress Report and also in the Final Report] Every chapter should start with 1-2 sentences on the outline of the chapter.

1.1 Introduction

This section should present the background and a problem statement that your project aims to solve.

1.2 Motivation

The computational motivation that encourages you to solve the problem should be stated here clearly. In addition, you can mention why solving this problem will benefit you.

1.3 Objectives

Enumerate the objectives in clear and specific terms.

1.4 Methodology

Here you put a summary of the methodology.

1.5 Project Outcome

What are or could be the possible outcomes of your work?

1.6 Organization of the Report

Here put a chapter-wise structure of the report in narrative form.

Chapter 2

Background

[Must be present in Phase-1 progress Report and also in the Final Report] Every chapter should start with 1-2 sentences on the outline of the chapter.

2.1 Introduction

In this section, you have to provide the necessary background knowledge to understand the rest of the report [1].

2.2 Literature Review

This section will contain your literature review. [2] You can use the following table as well as paragraph to represent your background study (*at least 10*).

Table 2.1: Summary of Literature Reviewed.

Author (s)	Year	Title	Methodology	Key Findings
Doe et al.	2020	A Comprehensive Study on Data Science	Qualitative Analysis	Found significant trends in data science applications.
Smith	2018	Machine Learning in Healthcare	Survey-based	Highlighted the major algorithms used in healthcare for prediction.
Johnson et al.	2019	AI for Financial Forecasting	Quantitative Analysis	Demonstrated the effectiveness of AI in improving financial decision-making.
Williams [3]	2021	Blockchain in Supply Chain Management	Case Study	Showcased the potential of blockchain to enhance supply chain transparency.

2.2.1 Similar Applications (Mandatory for project, optional for research)

Put a summary of similar case study, methodological contribution of other web applications, and mobile apps similar to your work (*at least 5*).

2.3 Gap Analysis

Here put summaries the gaps you have found/observed from the related work study, where you intend to contribute.

Sample Table

Features	TechLandbd	Ryans	Computer Village	StarTech	Paragon-Computer bd	Proposed system
Like or dislike to products	No	No	No	No	No	Yes
Filtering liked and disliked products	No	No	No	No	No	Yes
Add to favorite or wishlist	Yes	Yes	Yes	Yes	Yes	Yes
Search option of products	Yes	Yes	Yes	Yes	Yes	Yes
Detailed descriptions of products	Yes	Yes	Yes	Yes	Yes	Yes
Offers collection	Yes	Yes	Yes	Yes	Yes	Yes
Customer reviews and ratings	Yes	Yes	Yes	Yes	Yes	Yes
Multiple payment options	Yes	Yes	Yes	Yes	Yes	Yes
FAQs option	No	Yes	Yes	Yes	No	Yes
Chatting option	Yes	Yes	Yes	No	Yes	No
Recommendations or filtering latest products	Yes	Yes	Yes	Yes	Yes	Yes
Product add to cart	Yes	Yes	Yes	Yes	Yes	Yes
PC Builder	Yes	Yes	Yes	Yes	No	Yes
Quick view	Yes	Yes	No	No	Yes	Yes

2.4 Summary

Provide a brief summary of this section here.

Chapter 3

Research Methodology

[Must be present in Phase-1 Progress Report and also in The Final Report] Every chapter should start with 1-2 sentences on the outline of the chapter.

3.1 Methodology/Requirement Analysis & Design Specification

Note:

- Keep **Methodology for research** and
- Keep **Requirement Analysis & Design Specification for project**

3.1.1 Overview

3.1.2 Proposed Methodology/ System Design

Note:

- Keep **Proposed Methodology for research** and
- Keep **System Design for project**

Figure 3.1: This is a sample diagram

3.1.3 Functional and Nonfunctional Requirements

Note:

- Functional requirements describe what the system should do — the core features and behaviors of the system under specific conditions.
- Non-functional requirements define how the system performs — they are quality attributes that affect user experience and system design, not specific behaviors.

3.1.4 Data Flow Diagram

3.1.5 UI Design

3.2 Detailed Methodology and Design

You have to mention alternate solutions that you have considered. Why you have selected the specific solution, etc.

3.3 Project Plan

3.4 Task Allocation

This table depicts the timeline of the principal activities in each period of the project, from week 12 to week 48.

Sample Table

Sample Task

Tasks	Weeks																			
	12	14	16	18	20	22	24	26	28	30	32	34	36	38	40	42	44	46	48	
Data collection phase																				
Preprocess all the data																				
Model training																				
Create a demo application.																				

3.5 Summary

Provide a brief summary of this section here.

Chapter 4

Implementation and Results

[Must be present in the Final Report. Incomplete version might be included in Phase-1 Progress Report, however it is optional.]

Every chapter should start with 1-2 sentences on the outline of the chapter.

4.1 Environment Setup

4.2 Testing and Evaluation/Performance/ Comparative Analysis

4.3 Results and Discussion

4.4 Summary

Provide a brief summary of this section here.

Chapter 5

Engineering Standards and Design Challenges

[Must be present in Phase-1 Progress Report and also in Final Report] Every chapter should start with 1-2 sentences on the outline of the chapter.

5.1 Compliance with the Standards

Only mention the standards that are related to your project. This list is not complete. For each of the standards discuss the alternates with pros and cons and rationale of selection.

5.1.1 Software Standards

5.1.2 Hardware Standards

5.1.3 Communication Standards

5.2 Impact on Society, Environment and Sustainability

5.2.1 Impact on Life

5.2.2 Impact on Society & Environment

5.2.3 Ethical Aspects

5.2.4 Sustainability Plan

5.3 Project Management and Financial Analysis

Provide a cost analysis in terms of budget required and revenue model. In case of budget, you must show an alternate budget and rationales.

5.4 Complex Engineering Problem

5.4.1 Complex Problem Solving

In this section, provide a mapping with problem solving categories. For each mapping add subsections to put rationale (Use Table 5.1). For P1, you need to put another mapping with Knowledge profile and rational thereof.

Table 5.1: Mapping with Complex Engineering Problem.

EP1 Dept of Knowledge	EP2 Range Of Conflicting Requirements	EP3 Depth of Analyses	EP4 Familiarity of Issues	EP5 Extent of Applicable Codes	EP6 Extent Of Stake- holder Involvement	EP7 Interdependence

Mapping with Knowledge Profile

This section is designed to map the overall problem and EP1 (*multiple between K3, K4, K5, K6, K8 for attaining EP1*) to the Knowledge Profile.

Table 5.2: Mapping with knowledge Profile.

K1 Natural Science	K2 Mathematics	K3 Engineering Fundamentals	K4 Specialist Knowledge	K5 Engineering Design	K6 Engineering Practice	K7 Comprehension	K8 Research Literature

5.4.2 Engineering Activities

In this section, provide a mapping with engineering activities. For each mapping add subsections to put rationale (Use Table 5.3).

Mapping with Complex Engineering Activities

This section is designed to map the overall problem and EA's (*multiple*).

Table 5.3: Mapping with Complex Engineering Activities.

EA1 Range of re- sources	EA2 Level of Interaction	EA3 Innovation	EA4 Consequences for society and environment	EA5 Familiarity

5.5 Summary

Chapter 6

Conclusion

[Must be present in Phase-1 Progress Report and also in the Final Report. Might be incomplete in FYDP-1 Report.]

Every chapter should start with 1-2 sentences on the outline of the chapter.

6.1 Summary

6.2 Limitation

6.3 Future Work
